INTRODUCTION TO SA PAVING

The South African paving company that homeowners prefer

SA Paving was established in 1978 and has since become South Africa's leading brick paving company with branches in Johannesburg, Pretoria, and Cape Town.

We deliver quality workmanship at all times and every project is managed by a project manager, a site foreman, and a team leader to ensure the success of your project.

Cladding Stone Product Portfolio Guide

HOW TO USE THIS GUIDE

What you should know

- All SA Paving projects come with a 25-year service guarantee
- We only use A-grade and above quality bricks
- Your rights are protected by our Master Builders Association contract
- The products in this product portfolio are only available in Gauteng.

- 01** This product guide is compiled to provide you with ideas and insights as to which types of Cladding Stone will suit your project the best.
- 02** Browse through the guide and choose the paving choices you prefer.
- 03** To view samples of your brick or stone choices please ask your SA Paving Concepts & Design Specialist to put together the samples for you and they will show them to you at your on-site visit.
- 04** Please use the reference number on the image of the product you wish to see a sample of.
- 05** You are always welcome to call us on 0800 024 000 or email us at info@sapaving.co.za

BACH CLADDING

Suitable Applications

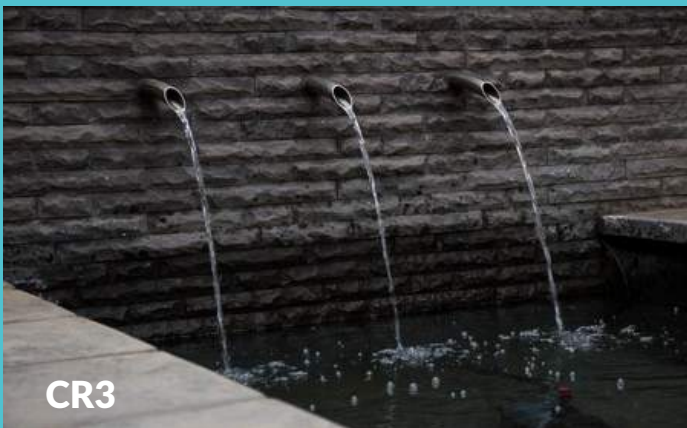

Bach Cladding is made up of a range of various sized square and rectangular shapes all with different surface angles. The shapes can be fitted together to form beautiful contemporary designs and a stunning modern look. It is ideal for exterior wall features, columns and landscaping.

CALEDON RIVEN CLADDING

Suitable Applications

Caledon Riven Cladding with its strip-type design is ideal for use as a wall feature. It is available in various colours and can be used both indoors and outdoors.

COUNTRY CLADDING

Suitable Applications

Country Cladding adds a natural farmhouse look to outdoor areas. It is ideal for fireplaces, garden walls, swimming pool surrounds, braai areas and many others. Different size and colour options are available.

DRAKENSBERG CLADDING

Suitable Applications

Drakensberg Cladding is made up of large, heavily-textured cladding pieces. This makes the Drakensberg Cladding suitable for large feature walls, fireplaces, bar counters, and restaurants.

NATURAL STONE CLADDING

Suitable Applications

Natural Stone Cladding is only suitable for cladding walls. It is made of quartzite. Strip walling (20 to 30 mm in height) or building stone (40 - 60 mm height) is available. It comes in White, Autumn and a mix of colours.

OCTAVE CLADDING

Suitable Applications

Octave Cladding is available in a variety of different colours which can be mixed and matched to create the design style you require. It can be used indoors and outdoors to enhance any wall or landscaping feature.

WYNBERG CLADDING

Suitable Applications

Wynberg Cladding is available in 24 different sizes and shapes. It provides an old-world charm look to your home and is considered to be a more formal version of the the Country Cladding range.
